

AVerVision CP135

Portable Document Camera

AVerMedia[®]

in no time

Product Description

The AVerVision CP135 is an economical yet robust document camera with a 3.2 mega pixel camera head, 720p HD output and Manual Focus for producing high quality images through virtually any projector or monitor. Essential features include a 16x total zoom including the 2x AVERZOOM like optical zoom technology, exclusive presentation features as well as Picture-in-Picture and Split-Screen functions, 360 degree access remote control creating a high value interactive document camera. Video and audio recording are available through the included AVer+ software at an incredible 24 frames per second recording and true 3.2 mega pixel single or time-lapsed still image capture. A Wide Angle viewing area of 13" x 9.75" is perfect for showing larger documents or objects. The CP135 is an incredible value and an economical choice for virtually any environment.
